Young Artist's Workshop

-presented by-
Masterpiece Christian
Fine Arts Foundation

@ Ashland Hills Hotel
Ashland, OR

JENNIFER GARRETT

MICHAEL FARLEY

DRAWING & DIGITAL ART

GUITAR & MUSICAL MASTERY

Morning Session // Introduction to the Fundamentals of Visual Art

Morning Session // Understanding Basic Music Theory

In this class, we will cover an overview of the fundamental elements of visual art that can help you to lay the foundation for strong artistic works. The class will include a short exercise to give you the opportunity to apply several of these fundamentals in a hands-on way.

Composing is an art and just as a true artist of the canvas must understand the basics of color, so a musician should have a good handle on the basics of music theory. The main purpose of this course is to explore music theory so that the musician has a solid foundation from which to compose, practice, learn and relate to other musicians.

Bring these Supplies:

- ✓ 9x12" Strathmore Drawing Pad

We will touch on nomenclature, major and minor chords and scales, sharps, flats, keys, and intervals. We will also analyze a variety of songs and explore how they were constructed and composed.

*Pencils, erasers, and sharpeners will be provided

Afternoon Session // Introduction to Digital Drawing & Painting

Afternoon Session // Guitar Tips and Techniques & Goal Setting for Masterful Results

In this session we will explore the Autodesk Sketchbook program (compatible with tablets and smartphones). You will learn the basics of navigating and using various tools in digital drawing/painting. This will include demonstrations, hands-on practice, as well as ways this skill will benefit any kind of artist, whether using digital or traditional media.

This guitar course will explore a variety of guitar styles, basic and advanced. It will include fingerstyle and plectrum styles as played on the electric or acoustic guitars. Also, we will explore alternate tunings for creative song composition. Whether you want to learn new techniques, be exposed to different styles, dissect familiar songs or learn about tried and true practice habits, this class will encompass all of that and more.

Set effective goals and follow through for masterful results: introducing *Farley's Goal Roll*

Bring these Supplies:

- ✓ Touch screen tablet/smartphone (iPad, Android devices).
- ✓ Autodesk Sketchbook (please download and make the small purchase of the full program prior to the class).
- ✓ A stylus/pen/pencil that is compatible with your device. (Fingertip obviously works too, but isn't as precise for drawing)

Bring these Supplies (both sessions):

- ✓ Acoustic or electric guitar
- ✓ Recording device (smartphone/other device). It can be helpful to record the class, or parts thereof.

LAUNCH POINT A.M. MESSAGE | "MUNDANE OR MASTERFUL"

Join us prior to the morning session, at 8:45 in the morning, to partake in an incredibly inspiring and purposeful message by Michael Farley. As an experienced musician and entrepreneur, Michael lends valuable insights to discovering, mastering, and sharing the treasured gifts in each individual.

cost - \$30 per session

*attend consecutive sessions and gain the fullest understanding and experience possible!

*lunch not provided — bring a packed lunch to enjoy on the grounds of the hotel or search nearby local options.
